

Low Speed Centrifuge Machine For Blood Collecting Tubes 4 Star Swing Our Rotor

•	Place of Origin:
•	Brand Name:
•	Certification:
•	Model Number:
•	Minimum Order
•	Price:
	Packaging Detai

Basic Information

MKE CE,ISO13485,ISO9001,SFDA KC-550B

er Quantity: 1

Packaging Details:

- Wooden Box 7-15 work days
- Delivery Time:
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram

CHINA

Negotiable

100 set/month

• Supply Ability:

Product Specification

 Applications: 	Hospitals, Veterinary Clinics, Food Labs, Universities & Colleges, Pharmaceutical Labs, Cell Culture Labs, Infant Stations	-
 Max Speed: 	6000rpm	
Max RCF:	6080xg	
 Max Capacity: 	4*600ml Swing Out Rotor	The second secon
 Matched Rotors: 	Fixed Angle Rotor, Swing Out Buckets Rotor	
 Display: 	LCD	
• Warranty:	1 Year,3 Years,5 Years,Free Replacement Parts And Shipping Within Warranty	
Highlight:	Haematocrit Low Speed Centrifuge, Blood Tubes Low Speed Centrifuge,	
	Blood Tubes centrifuge haematocrit	

Product Description

The benchtop centrifuge KC-550B can accommodate the blood collection tubes of height 100 mm and 76 mm with auto decapping adapter, which improves the work efficiency.

An automatic cap-opening centrifuge is a type of centrifuge that features an automatic lid-opening function, which allows for easy loading and unloading of centrifuge tubes. This type of centrifuge is commonly used for sample separation and purification in applications such as biochemistry, molecular biology, medicine, and other laboratory settings. It is characterized by its ease of use, efficiency, and safety, which can save time and effort for laboratory personnel, while also avoiding contamination and errors that can occur with manual operation.

Design

Our Product Introduction

• Metal housing, metal lid, and 304# stainless steel centrifuge chamber are autoclave-able and resistant detergents and disinfection liquids.

- Observations window on lid for speed calibration and noise measurement.
- Microprocessor control with frequency conversion A.C. motor drive.
- LCD touch screen with simple&clear interface for viewing and setting parameters.

• Double layers sealing ring made for the centrifuge lid and the instrument to keep long good sealing.

User friendly

• Programmable and storable, stores up to 30 programs and provides direct user access with one keystroke save. The stored parameter: combination remains in the memory even after the centrifugation has been switched off.

• Provides the 10 acceleration rates and 10 braking ramp, to effectively avoid secondary sedimentation, with better centrifugation effect.

- Automatic lid-locking and holding during rotor run.
- Easily exchangeable rotors. Auto decapping adapter is available.
- Automatic troubleshooting with indication of error code and alarm on the screen.
- "Mute" patent technology. Noise level lower than 58 decibel at the highest rotational speed.

Safety

• Produced according to international safety regulations (e.g. IEC 61010)

• Safety Electrical lid interlock, door can not open when rotor is running and machine won't run when lid open and error code appears.

- Emergency lid-lock release when power failure.
- Gas hinge for lid drop protection.
- Safety protections are made for the over speed, imbalance etc to ensure the man machine safety.

WHY CHOOSE US

- Direct from the Manufacturer: Enjoy competitive pricing on all our products.
- Certified Excellence: Experience premium quality with our CE and ISO certified products.
- Customization at Its Best: Benefit from our robust OEM and ODM capabilities tailored to your specific needs.
- Reliable Production and Delivery: Trust us for guaranteed on-time production and delivery of your orders.
- Comprehensive Support: Rely on our comprehensive after-sales service, including complimentary product accessories.
- Expertise You Can Trust: We stand behind our 15 years of experience in R&D and production of medical centrifuge machines.

Our Factory Introduction

We have a standardized production workshop operated by a dedicated team that ensures quality in every laboratory centrifuge and lab equipment we produce. Our R&D division includes design engineers, technology specialists, qualified experts, and process control managers. Following a strict quality control system, our specialists oversee the entire production process, from design and R&D to testing, production, quality inspection, and packaging.

- Specialize in centrifuges.
- With decades of experience, we've exported to 80+ countries.
- Proven Reputation: SGS and Intertek inspected, underlining our reliablity.
- Manufacturing Capabilities: 6 floors, 3000 sqm each, dedicated to manufacturing and quality control.

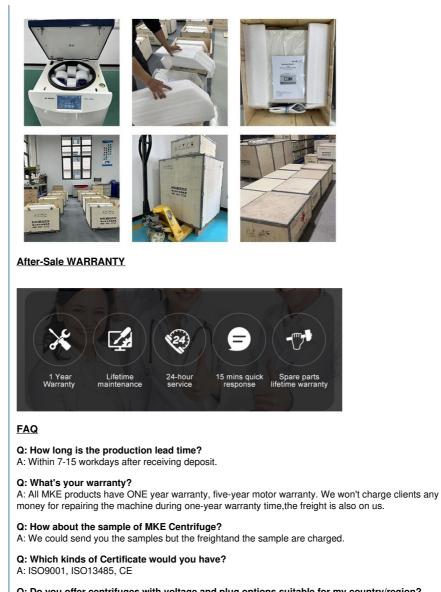

MKE Exhibition

Packaging & Delivery

MKE centrifuges are securely packaged in wooden cases or carton boxes, selected according to the weight and size of the goods. This ensures they are delivered in excellent condition to customers worldwide.

Q: Do you offer centrifuges with voltage and plug options suitable for my country/region? A: Yes, we provide centrifuges with various voltage and plug options to meet different country/region requirements. Please let us know your specific needs, and we will ensure compatibility.

Q: Are there customized options available for specific applications? A: Absolutely! We offer customization options to meet specific application needs. Let us know your requirements, and we will tailor the centrifuge accordingly.
